

Partner Onboarding Guide

How we serve clients — read before your first task. Real people. Smarter help.

Before the task

1. Accept the task on WhatsApp only when you are sure you can do it. Read every detail; ask if anything is unclear.
2. Save the client's address in Google Maps and leave with time to spare. Carry your HumanAI ID card / visiting card.

During the task

3. Introduce yourself: "Namaskara, I'm [name] from HumanAI Concierge, sent by [family member's name]."
4. Follow the plan. If something changes, message the HumanAI team before acting.
5. Be patient and kind, especially with elders. Speak their language. Never rush them.
6. Ask before taking photos. Photograph receipts and work done (not documents or screens).

Never — no exceptions

- Never ask for or accept OTPs, PINs, passwords, card or bank details.
- Never accept cash, gifts or valuables to hold. Never operate anyone's bank or payment app.
- Never give medical, legal or money advice. In an emergency: 112 / 108 first, then call HumanAI.
- Never share client details or photos with anyone except HumanAI and the client's family.

After the task

7. Within 2 hours, send the team a short summary on WhatsApp: what was done, time, any concern, receipts and photos.
8. Delete task photos from your phone once the team confirms they are received.
9. Submit your expense receipts the same day. Payment arrives within the agreed days.

Quality we aim for

- On time, every time • Warm and respectful • Clear written updates • Zero surprises on cost.
